Features and Benefits

A Green Ticker™

- Informs user of number of 500ml bottles saved from landfills

B Visual Filter Monitor (filtered models only)

C Water Dispenser

- Fill rate* is 4.0 litres per minute
- Laminar flow provides clean fill with minimal splash
- Plastic surrounding dispensing area is integrated with Silver Ion Anti-microbial

D Sensor Activates

- Electronic sensor provides touchless, sanitary operation
- No need to hold bottle, just place in front of sensor and fill
- Automatic 20 second shut off timer
- User interface design makes touchless operation intuitive

Silver Ion Anti-Microbial Product Protection

Selected plastic components are integrated with Silver Ion Anti-microbial: this inhibits the growth of common bacteria, moulds and fungi that cause stains, odours and product deterioration for the useful life of the product
